Portfolio

Summary

React Native Developer with 1+ year of experience developing cross-platform mobile applications using React Native, Firebase, Node.js, and REST APIs. Proficient in GraphQL, MySQL, and performance optimization. Experienced in building scalable architectures with real-time databases and secure authentication systems.

Experience

- React Native Developer - D'arteweb**
Apr 2025 – Present | Udaipur, India
 - Developed and maintained production-grade cross-platform mobile applications using React Native.
 - Integrated REST and GraphQL APIs with Node.js and MySQL to build dynamic, secure, and scalable features.
 - Implemented Firebase Authentication, Realtime Database, and OneSignal push notifications for seamless user experience.
 - Optimized app performance by 25% and reduced bug count by 30% through systematic testing and code improvements.

Projects

Employee Attendance Management System — React Native, Node.js, MySQL, REST API

- Built a geo-fencing attendance system reducing proxy check-ins by **90%** for **100+ users**.
- Implemented secure Role-Based Access Control (RBAC) for Admin, Manager, and Employee roles.
- Optimized REST APIs handling **500+** daily transactions, improving response performance by **40%**.

Student Enquiry App (Anushaka Academic) — React Native, MySQL, REST API

- Developed a mobile app to manage student enquiries, admissions, and fee tracking end-to-end.
- Implemented enquiry-to-enrollment conversion flow, authentication, and real-time fee status tracking.
- Built a scalable structure using React Navigation and Context API for smooth user experience.

Student Login App (IIM Tiruchirappalli) — React Native, Node.js, Expo, MySQL

- Built a responsive student portal with secure authentication, session management, and user data operations.
- Integrated REST APIs for database operations and implemented payment gateway for fee submission and transaction tracking.

Google Maps Clone — Mapbox, JavaScript, Geolocation API

- Built a real-time navigation app with shortest path calculation and dynamic time estimation between destinations.
- Integrated multiple transport modes (Driving, Cycling, Walking) using Mapbox API and Geolocation API.

Portfolio Website — React, TypeScript, Styled Components ([Live Link](#))

- Designed a responsive personal portfolio to showcase projects and technical skills.
- Implemented reusable components and clean UI for better user experience.

Certifications & Achievements

- Mastering Generative AI and ChatGPT** – GeeksforGeeks (Jul 2025)
Skills: Data Handling, AI Model Development, Machine Learning, Prompt Engineering
- Learn Next.js From Scratch – Complete Course** – GeeksforGeeks (Jun 2025)
Skills: Next.js, React.js, JavaScript, Front-End Development
- AI for Beginners** – HP LIFE (Mar 2025)
Skills: AI Fundamentals, Business Applications, Ethical AI Practices
- Data Analytics Job Simulation** – Quantum (Forage) (Feb 2025)
Skills: Data Preparation, Customer Analytics, Insight Generation, Uplift Testing

Skills

- Programming Languages:** JavaScript, Python
- Front-end Technologies:** React, React Native, Material UI, Tailwind CSS, Bootstrap, HTML5, CSS3
- Back-end Technologies:** Node.js, Express.js, REST APIs, GraphQL
- Databases:** MySQL, MongoDB
- Developer Tools:** Git, GitHub, Postman, VS Code, Vercel
- Soft Skills:** Problem-Solving, Communication, Adaptability, Time management

Education

Mohanlal Sukhadia University, Udaipur	2023 – 2025
Master of Computer Applications	6.38 CGPA
Bhupal Noble's University, Udaipur	2020 – 2023
Bachelor of Computer Applications	73.5 %

Interest

Content Creation | Exploring Emerging Technologies | Listening Music | Playing Sports (Cricket)
